

CCP Admin Webinar

JANUARY 28, 2022

Status of our Extension Requests

- After submitting our 90-day extension proposal, FEMA/SAMHSA asked California to submit a 30 day extension proposal.
- Due to the holidays, FEMA acknowledged they needed more time to review our larger proposal.
- The 30 day extension proposal was submitted and we hope to hear of its approval soon, it would extend the program to March 11th.
- DHCS is submitting a 60 day extension proposal, which would extend the program until May 10th.
- DHCS intends to also apply for another 90 day extension that will be a phase down to program end on August 8th, 2022.

Contract Amendments

- When we receive approval of the 30 day extension, we will send out simple amendments to extend the program.
- Please sign and return via docuSign.
- We expect the 30 day extension will continue the current funding levels.

Invoices

- Please stay up to date on sending in your invoices.
- Revised invoice template is on the repository site and is for invoices for September forward. Please use updated template.
- You can send in supplemental invoices with the new invoice, back to September.
- Repository site also includes the Travel Expense Form, which must be filled out with google maps for mileage attached.
- FEMA has notified us that mileage rates have increased on January 1, 2022 to \$0.585/mile from \$0.56/mile.

Serving Individuals who are Deaf or Have Hearing Impairments

- FEMA/SAMHSA is interested in how we are serving these individuals.
- If you have counselors that know American Sign Language (ASL), please put your agency in the chat. If you know the number of counselors that have this skill, include the number.
- Look for a survey monkey on this topic that will be sent to the P.C.s this next week.
- We understand that most clinics are required to have this service for those who are in-person, but do any of you provide this virtually?
- How would those subs and counselors who know ASL like to receive these referrals?

Masks and At-Home Test Kits

- FEMA allows reimbursement for disposable masks only.
- Free N-95 masks are now available at many pharmacies and some subs have received free N-95 masks through their counties.
- Some subs have ordered free tests through this link:
- [iHealth Test Order · Starter Portal \(powerappsportals.us\)](https://powerappsportals.us)

Requirements on Subs

- The fifth Summary of Accomplishments covers December and January and is due February 4th.
- We will continue requiring summaries until the program end.

Other Issues

- Next Admin Mtg has not been scheduled yet.
- If there are no changes to the budget and the extensions are approved, do you want to have a February meeting?
