1  RFI Summary

The California Mental Health Services Authority (CalMHSA), a Joint Powers Authority (JPA), serves California Counties and Cities as an independent administrative and fiscal intergovernmental structure for jointly developing, funding, and implementing mental health services and educational programs at the state, regional, and local levels. (See Gov. Code §6500 et seq.)

CalMHSA is working to support a multi-county collaborative with Stanislaus, San Joaquin, and Merced counties to improve current and long-term crisis and residential behavioral health treatment needs through rehabilitating portions of a property located in and owned by Stanislaus County to accommodate a 100-bed Social Rehabilitation Facility (SRF) and a 32-bed Mental Health Rehabilitation Center (MHRC).

This Request for Information (RFI) is issued for the purpose of information and to determine number of respondents available with the desired expertise. This RFI does not constitute a Request for Response (RFP) or a promise to issue an RFP in the future. This RFI is issued for the purpose of soliciting responses from interested individuals/entities with the expertise and capacity to provide services.

This request for information does not commit CalMHSA to contract for any supply or service whatsoever. Further, CalMHSA is not at this time seeking Responses and will not accept unsolicited Responses. Responders are advised that CalMHSA will not pay for any information or administrative costs incurred in response to this RFI; all costs associated with responding to this RFI will be solely at the interested party’s expense.

2  Project Scope of Work

CalMHSA is seeking a vendor to oversee and implement construction of a Mental Health Rehabilitation Center (MHRC) and a Supported Residential Facility (SRF) where individuals can receive critical treatment services and appropriate supervision and support. An MHRC is a 24-hour program which provides intensive support and rehabilitative services designed to assist persons 18 years or older with mental disorders who would have been placed in a state hospital or another mental health facility to develop skills to become self-sufficient and capable of increasing levels of independence and functioning. An SRF provides 24 hour a day non-medical care and supervision in a group setting to adults recovering from a mental illness who temporarily need assistance, guidance, or counseling.

This venture is supported by 3 counties: Stanislaus, Merced, and San Joaquin. Once completed, the MRC and SRF will provide a range of services that will enable individuals in need to stabilize their mental health condition, work towards recovery and independent living, and improve their quality of life. The current property to either be rehabilitated and added to or demolished and re-built is in Stanislaus County, and currently houses several of the County’s behavioral health programs and services:

- 16-bed Psychiatric Health Facility (PHF)
- Community Emergency Response Team (CERT)
• 24/7 Crisis, Access and Support Line
• Brief Intervention Counseling
• 44-bed Residential Substance Use Disorder Treatment Facility
• Substance Use Disorder Care Coordination Team, Outpatient Treatment and Recovery Services

The new complex will contain all current services and the new MHRC and SRF in order to create a full continuum of residential services on one campus, allowing for clients to transition to both a higher and lower level of care. This innovative project will maximize the site and allow for less disruption of client care and support.

Vendors must have a history of construction that takes site restrictions, collaborative planning with multiple stakeholders, and end user safety into account. The selected vendor will work closely with the architects and design team, County representatives, community stakeholders, city, and state officials and CalMHSA during the project.

If CalMHSA receives a request for public disclosure of all or any portion of a proposal that has been designated as exempt from disclosure, CalMHSA will use reasonable efforts to notify the responding party of the request and give such party an opportunity to assert, at its own expense, a claimed exception under the California Public Records Act or other applicable law within the time period specified in the notice issued by CalMHSA and allowed under the California Public Records Act.
