1 RFSQ Summary

The California Mental Health Services Authority (CalMHSA), a Joint Powers Authority (JPA), serves California Counties and Cities as an independent administrative and fiscal intergovernmental structure for jointly developing, funding, and implementing mental health services and educational programs at the state, regional, and local levels. (See Gov. Code §6500 et seq.)

CalMHSA is seeking responses from a Credentials Verification Organization (CVO) interested in providing credentialing and re-credentialing services to California County Mental Health Plans (MHPs), Drug Medi-Cal Organized Delivery System (DMC-ODS) Plans, and DMC State Plans (hereafter referred to as “Plans”) to ensure each Plan’s provider network is appropriately qualified through registration, certification, licensure, and/or professional association memberships, and are in good standing with federal health care programs, including Medicare and Medicaid/Medi-Cal programs. The CVO is encouraged to be NCQA certified and/or URAC accredited.

The RFSQ application process allows organizations to be evaluated for capability and compliance prior to submitting a formal Request for Proposal. However, CalMHSA may choose to contract with the Applicant and omit the need for a Request for Proposal based on the RFSQ submission alone if deemed appropriate. This process does not commit CalMHSA to contract for any supply or service whatsoever. In addition, Applicants are advised that CalMHSA will not pay for any information or administrative costs incurred in response to this RFSQ; all costs associated with responding to this RFSQ will be solely at the interested party’s expense. Not responding to this RFSQ does not preclude participation in any future RFP, if any is issued.

2 Project Scope of Work

Per Mental Health and Substance Use Disorders Services Information Notice No: 18-019 Provider Credentialing and Re-Credentialing for Mental Health Plans (MHPs) and Drug Medi-Cal Organized Delivery System (DMC-ODS) Pilot Counties providers that are not properly credentialed and/or re-credentialed may not participate in any Plan’s provider network. To support counties in this requirement, CalMHSA is seeking a vendor to assist counties in performing credentialing and recredentialing activities on an ongoing basis. Deliverables include:

1. Develop credentialing and re-credentialing policy(s) and procedure(s) that can be used by a variety of provider network types in California County Plans. Please include details on what your turnaround time would be to complete this deliverable.

2. Create an attestation agreement for network providers to sign that is in alignment with the Department of Health Care Services statewide uniform credentialing and re-credentialing guidance. The document should be mutually agreed upon between the vendor, the Plans and CalMHSA.
3. Develop a credentialing and re-credentialing application to gather network provider information. Vendor must have the ability to perform this function on behalf of the Plans. The application must provide instructions on how to fill it out, must mention any required documents to submit along with application based on provider type, and where and how to submit application and required documents (if any).

5. CVO must have a secure way to receive and send providers’ credentialing and re-credentialing information to county Plans (e.g. secure portal) to maintain confidentiality of all information obtained in the process.

6. CVO has the capacity to verify through a primary source, as required by the particular provider type, the following information. CVO must document how and when the information was received and how it was stored.

   a. Appropriate license and/or board certification or registration
   b. Evidence of graduation or completion of any required education
   c. Proof of completion of any relevant medical residency and/or specialty training
   d. Satisfaction of any applicable continuing education requirements

7. CVO has the capacity to verify the following network provider information, as required by the particular provider type, but not necessarily through primary source verification. CVO must document the verification source used for each item below, along with how and when the information was received, and how it was stored.

   a. Work history;
   b. Hospital and clinic privileges in good standing;
   c. History of any suspension or curtailment of hospital and clinic privileges;
   d. Current Drug Enforcement Administration (DEA) identification number/certificate, if applicable;
   e. National Provider Identifier number;
