

## **Medi-Cal Peer Certification Stakeholder Advisory Council Member**

### **Kristen Mungcal | Clubhouse Expansion Program**

I have had the privilege of serving others in San Bernardino County Behavioral Health for over 15 years in a variety of roles. In my work for over a decade I have had the honor of overseeing the peer-run clubhouses. I know the power of peer support! No matter what position I am in, I never forget the experiences that allowed me to reach others and for them to reach and support me. In our program, lived experience is a requirement of ALL roles! I have spent the last few years helping to develop the Consumer Evaluation Council, a group of powerful peers who provide feedback and guidance to all programming, policy and evaluation efforts in our department. This profession is personal and that is what makes me so passionate and determined to assist each individual that comes my way until they get to where they choose to be.
