ODCES: Remove Staff Who Have Left

- Deactivate Staff No Longer Working:
- To deactivate any account, go to Administration and then User Management. For the user account to be deactivated, you click on “edit” for that account.
- Next, for the Active check box, simply click the box to ‘uncheck’ the active box. And then click on the update button. That account is then de-activated and the user cannot access ODCES.
